What You Will-When You Will-Stuart's Dyspepsia Tablets Help Digest the Meal.

the Meal.

Good food in itself is harmless. The usual reason stomach troubles arise is due to faulty digestion brought about by overwork, sickness, overeating, late hours, etc.

The best way to correct faulty stomach troubles due to digestive mistakes is to do what nature wants. All that nature usually needs in such cases is a little assistance to do this work. This is why doctors tell you to diet. Nature is then compelled to aid herself. You do not then overwork her when she is aiready exhausted.

Stuart's Dyspopsia Tablets go into your stomach just like food. They help digost food, and thus, when the next oneal is eaten, the system is better prepared to do its work without assistance.
